

## **SDG Goal 1 No poverty**

**SDG Target 1.3 Implement nationally appropriate social protection systems and measures for all, including floors, and by 2030 achieve substantial coverage of the poor and the vulnerable**

**SDG Indicator 1.3.1 Proportion of population covered by social protection floors/systems, by sex, distinguishing children, unemployed persons, older persons, persons with disabilities, pregnant women, newborns, work-injury victims and the poor and the vulnerable**

1. Name of data series	
<b>Population covered by health insurance</b>	
Compliant with SDG metadata: no	<a href="#">SDG Metadata ILO</a> <a href="#">SDG Metadata World Bank</a>

2. Definition of indicator
The indicator “population covered by health insurance” contains the number of all inhabitants regardless of their age that are either covered by private (e.g. officials, self-employed persons) or public health insurance. Also included are insured family members.
3. Comparison with SDG metadata (as of 08/06/2018)
The indicator provides additional information and is not compliant with the (sub)-indicators described in the international metadata description of the SDG indicator 1.3.1.

4. Data description
<p>The data on “persons with health insurance” is collected in the Microcensus of the Federal Statistical Office and the statistical offices of the Federal States (Länder). The Microcensus is an inquiry directed to households, designed to obtain information on the labour market and related issues through a series of personal interviews with a sample of 1 %. The Microcensus is designed as a multi-topic survey, integrating many different subject fields. The European Labour Force Survey (LFS) is integrated into the Microcensus and is harmonised in all EU member states.</p> <p>Data on population are the results of the latest population census (currently: 2011 Census) rolled forward in a breakdown by sex, age, marital status and citizenship, using both statistics of population change (migration, births, deaths, entering into marriages or registered same-sex partnerships) and information on changes in citizenship and the dissolution of marriages or registered same-sex partnerships. Before 2011, updated census data from 1987 (Federal Republic of Germany) and the population register of October 1990 (German Democratic Republic) were used. For the years before 2011 the results for population were calculated backwards using the census 2011 and migration, birth and death statistics.</p>

5. Calculation method	
<b>Population covered by health insurance =</b> $\frac{(\text{Population (1,000)} - \text{persons not covered by health insurance(1,000)}) \times 100 \%}{\text{Population (1,000)}}$	
6. Unit of measure	%

7. Timeliness	8. Frequency
t + 7 (mid of the year)	Quadrennial
9. Last regular revision	10. Revised period
Not applicable	Not applicable

## SDG Goal 1 No poverty

**SDG Target 1.3** Implement nationally appropriate social protection systems and measures for all, including floors, and by 2030 achieve substantial coverage of the poor and the vulnerable

**SDG Indicator 1.3.1** Proportion of population covered by social protection floors/systems, by sex, distinguishing children, unemployed persons, older persons, persons with disabilities, pregnant women, newborns, work-injury victims and the poor and the vulnerable

1. Name of data series	
<b>Unemployed persons with unemployment benefits</b>	
Compliant with SDG ILO metadata: yes	<a href="#">SDG Metadata ILO</a> <a href="#">SDG Metadata World Bank</a>

2. Definition of indicator	
Unemployed persons with unemployment benefits are legally as unemployed registered persons that receive benefits according to Book Two and Three of the Social Code. The federal definition of unemployment, written in § 16 Book Three of the Social Code, and § 53a Book Two of the Social Code, is different to the international definition of the International Labour Organization (ILO). For illustration of the difference, see <a href="#">the link</a> .	
3. Comparison with SDG metadata (as of 08/06/2018)	
The indicator is one of the (sub)-indicators mentioned in the international metadata description of ILO.	

4. Data description	
Calculation by using of administrative data (census) of the Federal Employment Agency.	
5. Calculation method	
$\text{Unemployed persons with unemployment benefits} = \frac{\text{Unemployed persons with unemployment benefits (number)} \times 100\%}{\text{Registered unemployed persons (number)}}$	
6. Unit of measure	%

7. Timeliness	8. Frequency
Book Two: about t + 4 months Book Three: about t + 3 months	Annual
9. Last regular revision	10. Revised period
Not applicable	Not applicable
