

SDG Goal 8 Decent work and economic growth
SDG Target 8.10 Achieve higher levels of economic productivity through diversification, technological upgrading and innovation, including through a focus on high-value added and labour-intensive sectors
SDG Indicator 8.10.1 (a) Number of commercial bank branches per 100,000 adults and (b) number of automated teller machines (ATMs) per 100,000 adults

1. Name of data series	
a) Branches of payment service providers (per 100,000 adults)	
Compliant with SDG metadata: yes	SDG Metadata
2. Definition of indicator	
The indicator measures the number of branch offices of institutions offering payment services to non-payment service providers (total) per 100,000 adults (age 15 and over).	
3. Comparison with SDG metadata (as of 17/07/2017)	
The time series provided is inline with the global SDG-Metadata.	
4. Data description	
<p>Directive 2007/64/EG defines six categories of payment service providers, amongst others credit institutions or post office giro institutions etc. Furthermore the sector “non-PSPs” includes the component sectors “Central government” and “Rest of the world”. Thus, this indicator is not a synonym of the term used in the ECB concept of narrow money supply (M1).</p> <p>The data on population for the years 2011 to this day is calculated by the Federal Statistical Office based on the Census in 2011 and has, since then, continuously been updated. Before 2011, updated Census data from 1987 for the Federal Republic of Germany and the population register of October 1990 for the German Democratic Republic were used. For the year 2010 the population was calculated backwards accordingly.</p>	
5. Calculation method	
$\text{Branches of payment service providers} = \frac{\sum \text{Offices of institutions offering payment services to non-MFIs [number]}}{\frac{\text{Adult population [number]}}{100,000}}$	
6. Unit of measure	Per 100,000 adults
7. Timeliness	8. Frequency
Not available	Annual
9. Last regular revision	10. Revised period
01 September 2018	Not available

SDG Goal 8 Decent work and economic growth

SDG Target 8.10 Achieve higher levels of economic productivity through diversification, technological upgrading and innovation, including through a focus on high-value added and labour-intensive sectors

SDG Indicator 8.10.1 (a) Number of commercial bank branches per 100,000 adults and (b) number of automated teller machines (ATMs) per 100,000 adults

1. Name of data series	
b) ATMs of national payment service providers (per 100,000 adults)	
Compliant with SDG metadata: yes	SDG Metadata
2. Definition of indicator	
The indicator measures the number of automated teller machines of national payment service providers per 100,000 adults (age 15 and over).	
3. Comparison with SDG metadata (as of 17/07/2017)	
The time series provided is inline with the global SDG-Metadata.	
4. Data description	
<p>Regulation (EU) No 1409/2013 of the European Central Bank defines an ATM as an electromechanical device that allows authorised users, typically using machine-readable physical cards, to withdraw cash from their accounts and/or access other services, allowing them, for example, to make balance enquiries, transfer funds or deposit money. A device allowing only balance enquiries does not qualify as an ATM. The ATM may be operated online, with a real-time request for authorisation, or offline.</p> <p>The data on population for the years 2011 to this day is calculated by the Federal Statistical Office based on the Census in 2011 and has, since then, continuously been updated. Before 2011, updated Census data from 1987 for the Federal Republic of Germany and the population register of October 1990 for the German Democratic Republic were used. For the year 2010 the population was calculated backwards accordingly.</p>	
5. Calculation method	
$\text{ATMs of national payment service providers} = \frac{\sum \text{ATMs [number]}}{\frac{\text{Adult population [number]}}{100,000}}$	
6. Unit of measure	Per 100,000 adults
7. Timeliness	8. Frequency
Not available	Annual
